Our Coal Fields and Manufactures

[From the New York Shipping List

Among the latest discoveries of coal in this country is a wonderful deposit in the Territory of Wyoming, lying immediately west of Nebraska and comprising a portion of the Rocky mountains This coal belt extends along the Pacific Railroad a distance of three hundred miles The quality is said to fully equal Lehigh coal yielding ten thousand feet of gas to the ton The workings at various places show the vein to be thirty to forty feet deep A company is taking out 3 000 tons per month, and the article is selling at the low price of seventy five cents to one dollar per ton The Central Pacific Railroad Company are using it on the eastern end of their road Professor Hayden, United States geologist who has lately returned from Wyoming where he has been prosecuting his geological investigations, speaks in high terms of that Territory Not only does it contain immense coal beds, but iron ore exists in great abundance, while a careful test of the soil on the hills and valleys shows that there is no part of the Territory that would not yield, by irrigation, forty bushels of wheat per acre

The vast and inexhaustible coal fields of the United States are among the most important of all forms of our latent wealth These fields have recently been estimated at two hundred thousand square miles, and though stupendous it is evident, from the frequent development of new sources, that the estimate is a moderate one

The importance of this incomparable store of concentrated mechanical force will be realized only when taken in connection with the immense extent of fertile land within our national limits which are capable of sustaining an immense manufacturing as well as agricultural population It adds greatly to the significance of the facts, that the rich land and the rich mines are to so large an extent in close proximity In the great coal fields of Illinois Indiana and Kentucky, scores of thousands of square miles of exuberantly productive land overlie a weight of coal exceeding, by many fold all that of the British Isles of excellent quality and easily procured Here, amidst almost boundless corn and wheat fields, a system of manufacturing is certain to arise, such as the world has never yet seen In the Missouri and Arkansas basin, as well as in Pennsylvania Maryland and Virginia, immense quantities of coal are associated with lands of great fertility The period when great manufacturing enterprises shall be established in these States depends mainly upon the States themselves Once established in such prolific regions, manufacturing industries will not, like those of other manufacturing countries, be in a state of dependence upon distant and foreign countries for food supplies, England now being obliged to supplement her natural deficiencies by the importation of food for her workers to the amount of four to five hundred millions of dollars per annum Having in abundance the power food iron copper, lead cotton, the ability to produce an adequate supply of wool and an unlimited scope for population, there is nothing to prevent the United States from becoming, in due time, the foremost manufacturing nation on the face of the globe Other countries having the start of us we shall have to make many sacrifices before we can take our proper rank, but with steady advances in favor of those less elementary occupations that at once characterize and largely constitute civilization, will anon bring ample recompense

The Repeaters and their Backers

[From the New York Tribune]

How completely the Democratic party in this city has chosen to identify itself with fraudulent voting and false counting of votes those who do not habitually read their journals can hardly realize. The recent acts of Congress, which had no other object and could have had no other effect than to prevent and punish illegal voting and miscounting have been fought by that party with desperate and untiring malignity Day after day have they been stigmatized in connection with the President s enforcement thereof as an invasion of State Rights a conspiracy to subvert the Rights of Suffrage the interposition of bayonets to drive the Democratic voters from the polls &c &c Yet not for years before have the legal electors of our city enjoyed such facilities for polling their votes as at the election of this week No negro troops, nor white troops were anywhere visible none would in any case have been employed unless in defense of the rights of legal voters against fraud and violence It never before was so easy for a legal voter to register as this Fall it never before was so easy for a registered legal voter to vote exactly as he saw fit Never before were ruffians and ruffianism more thoroughly overawed, never before did legal electors so generally exercise their right unmolested and unintimidated Up to this hour, not one of our city s 140 000 legal voters has complained that he was precluded from registering, or, being duly registered, from voting as deemed best

But, in spite of our Republican feuds and quarrels, which impelled the nomination of rival Republican candidates in several districts and so paralysed us that a full quarter of our votes were not polled, Hoffman s majority in 1868 was reduced by no less than 17 008 votes We believe he had as many legal votes as in 1868 yet his aggregate in the city is cut down more than 27 000 votes in defiance of the most desperate efforts and a lavish expenditure of public money There were not less than Ten Thousand men receiving pay from the city's treasury when our late election was held who would not have been on the city's pay rolls had there been no election this fall Boulevards street sweeping street opening, street paving, with Nicholson or other devices Central Park Croton water—in short everything Municipal were made to swell the long array of Tammany electioneers and voters And yet with all manner of drumming, cannonading, rocket firing and immense out door meetings night after night Hoffman s votes reduced from 112 522 to not far from 81 000

INTERVIEW WITH SENATOR HARLAN In a recent conversation with a Washington reporter Senator Harlan expressed his views on the Cox matter with considerable freedom, as well as on Schurz s bolting movement in Missouri Schurz, said the Senator is merely carrying out a raid which was commenced some time ago by the Eastern Senators over the San Domingo treaty Nominally Schurz supported the Administration but practically he did not He was the most active man in the Senate in organizing the opposition to that treaty

Of ex Secretary Cox he says Cox s resignation has created a bitter feeling When Cox went into the Cabinet Gen Grant considered him one of the most promising young men in the country He left on personal grounds alone I think with some unpleasant feeling on his part on account of having been overruled by the President ... ly the President not to interfere with the internal control of the Departments by his Secretaries but morally he ...

Cox wanted to restrict the clerks from going home to vote the President overruled him and he returns Besides Cox was about to direct extreme measures in the McGarrahan case and the President thought best to take the matter before Congress Cox went out mainly on personal grounds

The reduction of taxation since July 1866 has amounted to $251,848,327 33 The number of articles formerly taxed and now free is over 10,000

PACIFIC COAST DISPATCHES.

SPECIAL DISPATCHES TO THE OREGONIAN

CALIFORNIA

From San Francisco

SAN FRANCISCO, Nov 28 —This evening Isaac S Brokawa and Robert Evans, better known as White-headed Bob met on Bush street just above Montgomery and Brokawa drawing and aiming an army size self cocking revolver, shot Bob through both thighs, the ball lodging against the skin of the left thigh from whence it was extracted by Dr Munser The ball did not appear to have broken the bones, and it was first thought that the wound was not likely to be fatal, but at half past six Bob expired from hemorrhage the main artery having been severed It is understood that the difficulty was on account of alleged intimacy with Brokawa s wife Brokawa was immediately arrested He was considerably under the influence of liquor Both parties were known as sports Bob was from New York, and was generally known as remarkably quiet, peaceable and well behaved for his class

The steamer *Sacramento*, from Panama, arrived this evening She brings but $15 000 treasure Jul[illegible] proprietors of the hotel at Panda[illegible] were charged with setting fire to their premises and causing the great fire six months since have been tried and acquitted

The President of Colombia demands $5,000 from the British Government for the murder of the Alcalde in the riot of Toboga, but the commander of the *Zealous* referred the claim to the home Government and sailed for Chili

The delinquent tax list for this year is just published It embraces sixty-six ... exclusive of outside lands, against eighty eight last year, the payments having been made more promptly than at any time before for some years

John Raynor, first officer of the bark *Fanny*, and Geo Hewett, second officer of the bark *Howland* were held to day for trial on a charge of beating and wounding sailors

H Goodman, broker, arrested for selling the Marysville lottery tickets to day, has been allowed to go on his own recognizance There is little probability of his being indicted, as able counsel gives the opinion that the Mercantile Library lottery act repeal'd the penalty against all lotteries and left the courts no power to discriminate, and this view is held by at least one of our Judges

The pilot boat *Caleb Curtis*, which capsized on the bar on Saturday got into port to day One of her men was washed overboard and rescued by the *Oregon* The stove was thrown upon John Miller, who was sick below, burning and scalding him terribly, and all the food and supplies were washed out of the vessel, leaving him and the remaining man Peter Ott, without food until this afternoon Ott saved the boat by his coolness and seamanship, though once nearly carried over board

The slander suit of Dr White against Dr Cox is on trial in the Twelfth District Court, and is attracting much attention. The testimony is too voluminous for publication

The City Bank, savings, loan and discount, has been ordered to show cause why it should not be declared insolvent in the United States Bankrupt Court

The Republican Policy as Tested in the Elections

[From the New York Tribune, Nov 14]

In judging of the significance of recent elections it is necessary to discriminate between the results relating to national issues and national parties and those which indicate the operation of causes purely local in their character

The triumph of Tammany in this city has no conceivable bearing upon the action of the National Administration, or the programme of the party to which the Administration owes its existence The contest through which we have passed was local in its nature An organization with all the resources of the city Government at its command, had a hard fight for existence It put forward no pretense of principle Not one of the questions which divide the two national parties entered into its calculations Its triumph has nothing whatever to do either with the Administration or the purposes of the Republican Party Taking the State into consideration the verdict was favorable to both Tammany dominated in New York and New York dominated in the State Left to itself the State would have pronounced in favor of the Republicans.

Wherever in other States the Democrats have gained advantages, an explanation of the fact may be found in causes in no manner affecting the national standing of the two great parties In Massachusetts, the attempt of one idea fanatics to exact compliance with their demands only rendered more complete the triumph of the Republicans It ... the spirit of the grand old Commonwealth with manifest advantage to the Republican ticket In this State, the fanatics were not merely powerless—they were contemptible Outside of the city, the contest for Congress and the Assembly were here and there prejudiced by paltry feuds, by unworthy nominations, and by combinations in which principle had no place Michigan ... the same lesson The only obstacles encountered by the Republican Party were of a personal and local character They might have been avoided altogether had more care been exercised by some of the nominating conventions Illinois speaks yet more emphatically on the same point There more than in any other State in this latitude, the Republican cause seems to have suffered Defeats in ... cases hairbreadth escapes in others, ... duced majorities in almost all, ... the presence of influences inimical to unity. But ... influences proceeded neither from ... of the Democratic position, ... merits, nor from any abatement of the ... ness with which the Republican position has been heretofore sustained Apathy in some districts took the place of enthusiasm, but it was an apathy which might have been dispelled by more discreet nominations Jealousies and dissensions impaired strength, and the introduction of prohibition, as a side issue, almost everywhere operated injuriously to the Republican ticket

But neither in Illinois nor Michigan, in Missouri nor New York, can any reverse be traced to disapproval of the policy with which the Republican Party is identified The triumph of Gratz Brown in Missouri is, after all, the triumph of a principle to which the National Republican Convention of 1868 accorded a cordial indorsement. The loss in Illinois and elsewhere are the consequence not of disapproval of the party's policy, but of complications that were made formidable by the predominance of personal and local ... over the larger questions on which national policy rests Wherever a candidate, in other respects acceptable, has stood upon the broad platform of the Chicago Convention, he has been successful. Wherever the contest has turned upon pivotal party issues,—upon the Congressional action in reducing taxation and in cutting down expenditures, or upon the action of the Administration in respect of the collection of the revenue, and the introduction of fidelity and efficiency into the public service,—the Republican ticket has come out victorious The occasional weakness and defeats in every instance, excepting only the city of New York—indicate a departure from Republican principle an unwise adhesion to extraneous issues or a degree of dissension that would be fatal to any cause The influences that have achieved the ... are understood. The influences that have demonstrated their existence in other places have been strong or weak, in proportion to the closeness of their connection with the recognized Republican policy, as evinced in the measures of Congress and in the general course of the Administration

The Treaty Russia Wants Annulled

Since the commencement of the war between France and Germany, Russia has repeatedly evinced her intention to annul the principal stipulations of the Treaty of Paris entered into at the close of the Crimean war The contracting Powers of this treaty were France England Russia Sardinia and Turkey, and the following is a synopsis of the points of most present interest It is, of course the clauses which neutralize the Black Sea which Russia is most eager to have repealed

ARTICLE 9 Mentions that the Sultan grants reforms in regard to his Christian subjects

ART 11 The Black Sea is neutralized While open to the mercantile marines of all nations its waters and ports are formally and in perpetuity interdicted to vessels of war whether belonging to nations having territory bordering on it, or otherwise

ART 12 This article prescribes that all regulations respecting trade in the Black Sea shall be conceived in a spirit favorable to the development of commercial transactions

ART 13 The Black Sea being neutralized by a foregoing provision, Russia and Turkey engage neither to construct nor maintain any naval or military arsenal upon its coast,

ART 20 and 21 concede a portion of Russian territory, to be annexed to the Principality of Moldavia.

ART 22 The Principalities of Wallachia and Moldavia are to enjoy under the suzerainty of the Porte and under the gurantee of the contracting Powers the privileges and immunities of which they are in possession No exclusive protection shall be exercised over them by any of the guaranteeing Powers There shall be no private right of interference in their affairs.

ART 23 The Sublime Porte guarantees to the aforesaid Principalities an independent and national administration as well as full liberty of worship legislation, commerce, and navigation

ART 28 The Principality of Servia will continue to be dependent upon the Sublime Porte and subject to stipulations nearly similar to those named for the other Principalities

ART 30 Russia and Turkey are to retain in their full integrity their possessions in Asia to the same extent as before the war Commissioners are to be appointed to settle the boundaries

The Illinois Legislature is divided politically as follows Senate Republicans 30 Democrats 19 Independent Democrat (Mortimer O Kean supported by Republicans 1 Total, 50 House Republicans (regular and independent 101 Democrats 78 Total 1..

Mr Montgomery a colored man who was once a slave and owned by Jeff Davis, but now the proprietor of a 4,000 acre plantation in Mississippi, formerly the property of Davis, has raised 2 000 bales of cotton this year The planters everywhere throughout the State are recovering slowly but surely from the effects of the war.

"Civil Service Reform"

There is much fine morality just now in the utterances of the opposition press in regard to what is vaguely termed 'civil service reform' Our brethren of the so called Democratic faith are shocked to observe that a Republican Administration makes party fealty a test in appointment to public office And the way they declaim against this practice and the indignation they manifest in denouncing it, shows that there is a great deal of that ostentatious virtue called hypocrisy in the Democratic party

They maintain that under the very excellent doctrine of 'civil service reform' which it is alleged, Secretary Cox was sacrificed for trying to uphold, an applicant for office should never be questioned as to his political sentiments His fitness to perform the duties required should be the sole test, and if he happens to be a Democrat that little accident or ugly fact should make no difference whatever It is the Cox controversy that has set all our Democratic contemporaries to talking in this strain

Now, inasmuch as Republicans are expected to carry out this theory of 'civil service reform,' suppose our very virtuous Democratic brethren set us an example In this and other States, where they have control they can show us how to do it Let them generously give Republicans official positions or at least when it comes to filling offices ask no questions as to the political sentiments belonging to the applicant Does not the 'civil service' need reforming in Oregon quite as much as at Washington ?

It may not be out of place to hint gently that a party which never allows a political opponent to remain in office when it can remove him cannot very gracefully upbraid its opponents for not carrying out that sort of "civil service reform" which is herein described Where in this State is a Republican in office whom the Democratic party have power to remove? Not only has that party drawn the line with rigor in filling offices at its disposal, but it has actually legislated out of office Republicans elected by the people, simply to put Democrats in their places A party that has enacted the Portland Police Bill looks well in urging that party fealty should weigh nothing in official appointments! If the Democratic party could get control of the National Government it would make a clean sweep within twenty days of every Republican official, and no person could be connected with the Government in any capacity however humble who could not establish beyond question his title to be considered a "bed-rock" Democrat

We hope our brethren will not let this idea which they call "civil service reform" continue to disturb them If they cannot feel comfortable in any other way they might begin to practice what they preach, and thus furnish sinning Republicans an unselfish and meritorious example

Population of New England

The population of New England by the census just completed, as contrasted with that of 1860, stands as follows.

States	1860.	1870.
Maine	628 279	630,423
New Hampshire	326,037	317 976
Vermont	315 098	330 235
Massachusetts	1,231,066	1,448,054
Rhode Island	174,620	217,319
Connecticut	460,147	537,998
Total	3,135,283	3,482 001

The first three of these States show little gain, indeed New Hampshire has lost considerably. The last three show very fair increase of population. But it is slow, indeed, when compared with the rapid growth of the States of the upper Mississippi valley Take for instance the yet almost unknown State of Kansas. The increase of her population since 1860 almost equals the increase in all the States east of the Hudson river

Further comparisons are also instructive The State of Iowa has gained more in population since 1860 than the State of New York In Michigan and Wisconsin the rate of increase has been almost as rapid as in Iowa Illinois has gained more inhabitants since 1860 than the entire population of New Jersey, and more than the whole population of the States of Vermont, New Hampshire and Rhode Island combined These facts indicate how rapidly the center of population is moving westward. In the next Presidential election the power of the States of Illinois Wisconsin, Michigan Iowa, Minnesota, Kansas, Missouri and Indiana will be vastly increased, and the power of the more eastern States relatively diminished

The Eugene *Guard* delivers itself of the following highly refined and eminently sound Democratic sentiments 'A dispatch says the President is busily engaged in preparing his message to Congress. What an absurdity. Is any one simple enough to believe that the rum-guzzling, bloated debauchee, who makes the seat of government come to him at Long Branch, instead of going to it at Washington, is capable of preparing a message? Of course not. The fact probably is that U S G is drunker than usual and his friends call it preparing a message ' We fear the Eugene editor is taking the disease introduced into the country by the late Democratic Legislature or something worse

Victoria papers state that petitions are in circulation in that city praying for a survey of Johnson Straits, with the view of ascertaining the practicability of stretching a railroad across from the main land to Vancouver Island The Victorians are determined to have a "terminus," whether they ever get a railroad or not. There appears to be a little *dementia* among our English colonial brethren on this subject

COX AS A "REFORMER"—The Washington *Star* of the 17th says The claim set up in behalf of ex-Secretary Cox as a civil service reformer has brought out the fact established by the records of the Treasury that of four hundred clerks appointed by him to the Census Bureau, over fifty had previously been dismissed from that department for political reasons on the ground of incompetency or still more serious charges of various kinds '

Says the New York *Herald* of the 16th, 'Senator Trumbull in a conversation yesterday with our Washington correspondent sets at rest the reports going about the country that he was about organizing a new party He says he proposes nothing of the sort He thinks President Grant goes along very evenly in his duties, paying off the debt steadily and he thinks that is the best thing the party can do at present.'

A recent dispatch from Ostend reports over 1,000,000 Frenchmen in arms, and that all they need is organization. It is believed that the siege of Paris will continue through the winter unless the siege be raised Outside observers deem it much more probable that Paris will capitulate than the siege will be raised or continued during the winter

Questionable Enterprise

Under this caption the Eugene *Guard* a Democratic paper of the first water, censures the *Herald* for some of its plundering schemes in a way that is very much to the point We quote

'Our attention has been called by several members of the recent Legislature to a matter wherein the people are to lose at the amount of hundreds of dollars and the Oregon *Herald* gain at that amount A matter which Mr Patterson would do well to explain if possible Section eight of Chapter 45 of the General Laws reads that the State Printer shall cause the public acts of each session as soon as they are signed by the Governor to be published in some newspaper at the seat of government, with care and correctness under the superintendency of the Secretary of State each publication to be headed Laws of the State of Oregon Published by authority And for publishing the same he shall be allowed the sum of one hundred dollars

The *Herald* being owned by Patterson & Co, and they having no paper at the Capital, were desirous that this law be changed Mr Patterson interviewed members of the Legislature on the subject, requesting that the law be amended so as to read 'The State Printer shall cause the public acts of each session, so soon as they are published by the Governor or to be published in some newspaper of general circulation, published within the State of Oregon with care and correctness, under the superintendency of the Secretary of State each publication of the laws to be headed Laws of the State of Oregon Published by authority '

This was all well enough It was due the State Printer that the law should be so amended and members voted for it willingly But when this law came to be published in the *Herald* among others in the place of 'and for publishing, the same he shall receive the sum of one hundred dollars' was substituted 'and for publishing such laws he shall be allowed the rates as fixed and prescribed in Section 7 of Chapter 45, of which this is amendatory'

Section 7 of Chapter 45 allows 'for printing executive proclamations advertisements and similar documents one dollar and fifty cents per square of twelve lines' At this rate the State Printer will receive not less than $45 per column for publishing the laws Three issues of the daily *Herald* now before us contain a column of laws each—an excess of $35 over the amount allowed for publishing the laws of each session formerly Any newspaper publisher in this State who has an eye to business would gladly publish the laws of each session for one hundred dollars It must necessarily create an increased circulation, for there is no other way of getting these laws for six months after the adjournment, and when so published are allowed to be taken as good evidence Not only this but it gives character—a commodity the *Herald* is sadly in need of—to any paper This is a matter which needs explanation by Mr Patterson

THE TERRITORIES

Deer Lodge county, Montana, boasts a quartz ledge which yields $19 880 per ton of unselected rock.

A "corn doctor" has been itinerating in the Owyhee country He has operated on several subjects who are now unable to wear their boots, and are exceedingly liable to lose their toes

From the Walla Walla *Statesman* The special party detailed from headquarters at Portland have completed their work, and fixed the metes and bounds of the Reservation For some time we have had rumors that the post was again to be occupied by troops, but now the statement is that it is to be turned over to the North Pacific Railroad Company, to be used by them as a depot of supplies whilst their road is in course of construction. It is understood that the land, buildings, and all, just as they stand, are to be turned over to the company, and that possession will be given at once

From the Port Townsend *Message* On the 15th, a grand Indian *potlach* came off at one of the villages of the Swinomish tribe Seventeen tribes were represented, including some from Victoria, as far away as the mouth of the Columbia river Two hundred and twenty five canoes were counted on the beach, and it was estimated that 1,500 Indians were present at this grand festival. We are informed that about seven thousand dollars in coin and presents were distributed Jim Seattle, of Port Madison, was the Grand *Tyee* and under his management everything passed off quietly, no whiskey being allowed on the grounds

OREGON

Mr Crow, of Siuslaw, Lane county, went hunting panthers last week and brought in three of these animals

There is no small pox in Douglas county except in the family of J C Hutchinson member of the Legislature, who went home from Salem with the disease.

A correspondent at the Grand Ronde Reservation writes us Nov 20th, that three cases of smallpox have occurred among the Indians of the Umpqua tribe, located on the Reserve Fifteen miles below the Agency on the Yamhill river, there are three white families afflicted with smallpox, but none of them dangerously There is much alarm throughout the country about the disease

From the Roseburg *Ensign* We learn of a sad death that occurred on Wolf Creek in this county on Saturday last A young lady daughter of Henry Smith was found dead in her bed room, with a pistol wound in her forehead, the pistol lying under or near her There seems to be some mystery attached to this death it is thought supposed by her neighbors, that she closed her own existence, by the deliberate act It might have been accidental no one knows

From the Eugene *Guard* Sheriff Van Buren of Douglas county passed through on Monday en route for Salem to deliver to Mr Watkinds the following named prisoners Dan Clark, for embezzlement of a horse, was sentenced for four years Daniel we notice from papers below is playing insane hoping thereby to procure a transfer to the establishment of Dr Hawthorne But as that is an old game of his it is hardly probable that he will succeed Henry Glass not having the wherewith to obtain a glass rolled a party who had taken a glass too much for which he will be allowed bean soup at the expense of the State regularly for the next four years Jackson Grant stole a horse and will get his board and clothes for a year gratis

What is to be done in San Francisco is the question now perplexing Democratic politicians If primaries are permitted the 'boys' will carry them and respectable Democrats it seems there [illegible] people will bolt If the respectable and wealthy Democrats nominate without primaries the boys will bolt Altogether, San Francisco is in a very bad way looked at from an unreconstructed standpoint

General Butler writes from Lowell to the New York *Standard* reciting his connection with the McGarrahan claim, and states that neither the New Idria Company nor McGarrahan has any claim to the property, but that the United States Government is the real owner and that the President simply interfered to protect the Government He believes that President Grant should be thanked for holding the title in abeyance until Congress settles the question

The members of Congress elect in Missouri are as follows First District, Erastus Wells, Democrat, Second District, G A Finkelnburg Liberal Republican Third District J R McCormick Democrat Fourth District C E Havens, Radical Fifth District, S A Burdett, Radical Sixth District, Abram Comingo, Democrat, Seventh District, I C Parker, Radical Eighth District Jas G Blair Liberal Republican Ninth District Andrew King Democrat Four Democrats two Liberal Republicans and three Radicals

A New York dispatch of November 21st gives this A gentleman in immediate relation with European diplomacy, who arrived here by yesterday's steamer from Europe, informs your correspondent of the general belief in court circles of the insanity of the ex Emperor Napoleon His mental powers failed him before the beginning of the war and the loss of his Empire and military reputation since have completely shattered his intellect The fact is said to be recognized by the Empress and all the Bonapartists leaders who will thrust Napoleon IV forward as the figure head when the right time comes The same informant gives it as a settled impression in England and on the continent that Paris must fall, and that the new French armies will not be able to affect the result The Prussian line of investment is impenetrable and Bismarck and the King quietly await the finale.

The Army Record Board is now in session at the War Department and will probably complete its business in about two weeks. Upwards of one hundred and fifty officers, principally Captains and Lieutenants, have been summoned for the examination on questions touching the qualifications for office, including questions of moral character The act of Congress increasing the number of officers on the retired list to three hundred, instead of seven per cent., is being carried into effect There are three Retiring Boards in session respectively, in New York, Leavenworth and San Francisco Applicants for retirement were so numerous that it was contemplated to ask Congress to enlarge the list in order to make room for all disabled officers but from reports thus far the Board will not find more than eighty officers incapacitated for service from physical disabilities contracted in the line of duty

A Washington special of November 22d says A *Tribune* Washington special says General Butler left last night for the East. He had a long conference with Boutwell, and called on the President, but he says neither conversation was on matters of public interest Butler denies the report that his visit to Washington had anything to do with the President's message, or the future policy of the Government touching the *Alabama* claims, and he intimates that the message is already written The President, in conversation yesterday, referred to the report that he had treated Senator Schurz coldly on his arrival in Washington last week, and that he had been more friendly toward Drake He said the story was entirely without foundation On the day that Senator Schurz called the President was engaged and declined to see nearly every one. Drake who called the same day, was no more fortunate than Schurz

POLITICAL NOTES.

A Washington dispatch of the 23d reports this President Grant in speaking of the new party to day said it was regarded as a complete failure there was scarcely a prominent paper in the country that favored it

The President has completed his annual message, but will probably add further finishing touches It is more voluminous than usual, and contains a full discussion of the *Alabama* claims the Canadian fisheries, the European war etc

A Springfield (Ill) dispatch of Nov 23d says The Legislature, on an official count, will stand in the Senate 32 Republicans and 18 Democrats in the House, 102 Republicans and 75 Democrats The official returns of all the counties in the state except La Salle have been received at the office of the Secretary of State The majority on the State ticket will be about 25,000

The Tallahassee (Florida) *Sentinel* of the 22d says "Contrary to what was surmised last week from incorrect reports the Legislature has been carried by the Republicans—the Senate standing 10 to 11 with one still in doubt and the House 26 to 21 with four to be decided We give to day correct returns for Congress from twenty two counties and in these counties the Republican ticket is ahead 1 604 The vote stands as follows Wells, Republican 10 815, Niblack Democrat, 881 This is the latest received from Florida

FREE TRADE AND THE RESULT The *Evening Post* and its noisy little band of ultra free traders will not have much comfort from the returns of the elections In every locality were a republican congressman lost his election he lost it by local divisions and not on questions of free trade and so-called revenue reforms Rensselaer and Washington although electing a democrat do not gain a free trader The Saratoga district was lost by a local quarrel and the success of Mr Williams in Erie is owing to his personal popularity and not on account of his views in regard to protection and free trade. Cox and Brooks the great champions of free trade, are elected by greatly reduced majorities It will be seen that Greely the extreme protectionist reduces the majority of the radical free trader over fifteen hundred compared with his vote two years ago This was done against bags of money and the appeals of the one idea [illegible] of the *Post* The loss in Brooks's district is still more significant He had 11 000 majority two years ago He has now less than 2 000 All the strongholds of radical free traders show a falling off not only in this State but everywhere else—*N. Y. Commercial Advertiser*

WEDNESDAY MORNING NOV 30 1870

CITY.

THE LAST DAY OF A USEFUL INSTITUTION —We are informed by Col Drake the Secretary of the Portland Board of Statistics Immigration and Labor Exchange that the organization will be abandoned after to day in consequence of the failure of the Legislature and people to support it. Thus far it has lived and conducted its affairs upon the small sums donated from time to time by private citizens who have finally come to the conclusion that they can no longer afford it. In its day it has done very much for Portland, and, indeed for all parts of the State and ... deserved a better fate than to die in the very heyday of its usefulness At present, if we believe the universal current of reports from the Eastern States, there is a more general ... about, and interest taken in, Oregon than ever before known to exist and better prospects for a large and valuable immigration For the accomplishment of this the State is largely indebted to the efforts of the Board now about to ... It has published and distributed ... and to all parts of the States and to portions of Europe statistics and information about our State which could not fail to be of much benefit to us as a way of attracting attention, which has hitherto been directed elsewhere The reasons which brought the Board into existence still remain, and the organization ought to continue. When the Legislature refused to appropriate funds for perpetuating the life of the Board it exhibited an economy so niggardly and so utterly regardless of the best interests of the State as must ever remain a matter of surprise to every man of intelligence or public spirit The Board will, however go out of existence with the ... of having done much even with ... means

ST. DAVID'S CHURCH EAST PORTLAND —This new Church was opened for the first service on Sunday last Though the internal arrangements are not all yet completed, the building is so far finished as to be entirely comfortable As soon as plans are received from the architect it will be supplied with chancel furniture, and ... in keeping with the chaste and beautiful ... of the church Bishop Morris preached both morning and evening, being assisted in the services by the Rev J R W Sellwood who is ... in charge The offerings on this occasion were as follows Pledge for a stained glass window, $150 pledge for chancel furniture, ... gift of two chandeliers $65, U S coin for building fund, $105 making in all $520 ... the people of this congregation ... prospect of soon having their church edifice ... , which, while it is an ornament to ... will we trust also be the centre and ... lasting spiritual good to them and their ...

DEATH OF GEORGE P BOWMAN.

STATEMENTS CORRECTED — RESOLUTIONS OF CONDOLENCE

... morning in giving the account of the ... of George P. Bowman, we stated (having heard the account) that the Wasp's signal ... did not ring when the wire was pulled, and ... hence the steamer from which the ... fell, ran some distance before stopped ... the steamer's boat was in such a bad ... leaky condition that when lowered the men ... the steamer did not dare go in it These ... appear by positive testimony to have ... Mr Bowman the father of the ... man, who was on board when the accident ... states that the bell and wire were in ... order that the bell did ring to stop and ... propellers and back which signals ... were instantly answered by the engineer But ... being under full headway she was ... till she had run two or three hundred ... there being a very strong aft wind The ... boat was got out by Mr Bowman, but he being a ... could not work it, and he called on a ... couple of passengers to go in it, at the same time ... throwing ... a life-preserver The men ... through cowardice or some other reason refused ... go in the small boat and before the steamer ... could be backed to where George was struggling ... in the water, he went down to rise no more The ... small boat, though a little leaky was not in so ... bad condition but that it would have supported ... more than long enough to row to ... him and back again It was fit for use in setting ... ashore when the steamer did not ... make a landing

RESOLUTIONS BY THE PIONEER BASE BALL CLUB
At a meeting of the Pioneer Base Ball Club, held this, Tuesday November 29th 1870 the following resolutions were adopted
Whereas, It has pleased Almighty God to remove from our midst our friend and comrade George P. Bowman
Resolved, That whilst the members of the ... humbly bow to the Divine decree of God ... — to the afflicted parents and family of ... our friend our heartfelt sympathy
Resolved That by the death of our comrade ... Club has lost one of its brightest ornaments ... most worthy members
Resolved That these resolutions be published ... each of the daily papers and that a copy thereof be transmitted to the parents of the deceased

MATTERS AT EAST PORTLAND

MEETING OF THE BOARD OF TRUSTEES

The Board of Trustees held their regular weekly meeting Monday evening a majority being present

A remonstrance from C H Meussdorffer and Mary Clinton against the improvement of Second street between A and B was received and filed

The following claims against the city were allowed Emil Lowenstein & Co $52 L C Henrichsen $20 John Dolan $ 50 H H Gilfrey $10

The Committee of Ways and Means to whom had been referred the matter of the salary of the City Assessor reported recommending that it be fixed at $150 per annum and the report was adopted

The Committee on Streets reported that they had contracted with J W Webber to survey and establish street grades for the sum of $500 Report adopted

The following ordinances were passed

To regulate licenses for drinking houses peddlers etc [For selling liquors in less quantities than one quart $35 per quarter in quantities of one quart or more $15 per quarter peddlers being resident tax payers $26 per quarter]

To provide for the time and manner of improving Second street between J and B [Filling to grade with earth 36 feet wide at the top—the contract to be let to the lowest bidder]

To establish a ferry landing at the foot of J street [The first person to use and occupy the land for the purposes specified, to have and hold the franchise. The city reserves the right to establish other ferry landings]

Relating to the construction of street roadways side and cross walk and

To prevent and remove obstacles to side walks

The ordinance introduced some time ago to grant certain persons the right to construct wharves along the city front was defeated

A resolution was adopted instructing a committee to contract for the building of a city jail

A NEW CHANNEL FOR ASYLUM CREEK

A considerable force of hands are at work digging a new channel for Asylum creek making the mouth near the old powder house The work is being done by the railroad company so that the old creek bed where it lies under the trestle work, can be filled with earth for the railroad track

BUILDINGS AND TRADE

A considerable number of business houses have recently been built, and several others have been commenced Trade of all sorts has very largely increased within the past year.

The bark *Lyra* made an attempt yesterday morning to get up to the old railroad wharf but failed on account of her depth in the water A lighter was taken along side to receive a part of her iron

A CASE OF SMALL POX

A second case of small pox has occurred at East Portland—a Miss Brown, of this city, who nursed Mr Elam during his sickness being now sick with that disease She had had it once before and was supposed to be exempt but it is said she now has it in an aggravated form She was removed from the city limits a day or two since and no alarm need be felt by any one who has occasion to go to East Portland

THE NEW FERRY BOAT

This mammoth vessel is rapidly approaching completion One gets but a poor idea of its dimensions from looking at it from the Portland side of the river In reality, it is much larger than most of the steamboats plying the river The lower or deck story is about sixteen feet high—high enough to pass a locomotive the upper cabin for passengers is about eight feet high The deck is broad enough to take on a double track for cars The engines are of very powerful build the cylinders being three feet stroke and two feet diameter The boat will be propelled by side wheels each running independent of the other The model is of the double ender variety and the steering apparatus will be a rudder at each end each being worked by a tiller system of its own The workmen informed us that the engines will be ready for steam by the first of next week. The boat will not however, be launched so soon as that. Everything about her is built in the most substantial manner

LOCAL BREVITIES.

The friends of the Presbyterian Church should remember the festival this evening

The *Herald* records the fact that the "Heathen Chinese" Josh House has got a new lantern

A large subscription of land, at and near Vancouver, to induce the building of the N P railroad through that place, is reported raised

O P Mason has been appointed by the Governor a Notary Public for Multnomah county

The *Bulletin* publishes a rumor that George S Wright is about to put a small steamship—the *William Tabor*—on the route between Portland and Puget Sound

The funeral of George Bowman took place yesterday afternoon, from the Congregational Church A considerable number of friends accompanied the sad cortege to the cemetery.

The office formerly occupied by Messrs Stout & Burmester, has been rented by the United States for the use of the U S District Judge

A religious revival at Vancouver is reported Rev T A Wood is the pastor in charge

On Monday, a workman employed in the saw mill at Oregon City lost three fingers of one of his hands, by getting them against the front edge of a saw

After a remarkably beautiful day the rain again set in, just after dark last evening

THE COURTS.

TUESDAY November 29 1870

U S CIRCUIT COURT—DEADY J —B Stark vs L M Starr on motion plaintiff has until Saturday morning next to plead to the amended answer

Resignation of N R Packard received and filed

U S DISTRICT COURT—DEADY J —United States vs schooner *Louisa Simpson* libel for forfeiture for importing distilled spirits into Alaska cause came on for trial and in progress

CIRCUIT COURT—UPTON, JUDGE —This Court will convene again at 9 o'clock this morning

AMUSEMENTS.

ORO FINO THEATER —The drama of "The Iron Mask" in consequence, probably, of the threatening weather in the early part of the evening, was witnessed by only a small audience last night. It was, notwithstanding, rendered very effectively—even better, in some respects than on the previous evening No one can certainly find fault with the conceptions or personations of the leading characters Mr Bates Gaston is really a masterpiece of acting. To night the comedy of "Victorine, or I'll sleep on it," will be presented for the first time in Portland

Treat the Human Machine Gently.— The winding passage thirty feet in length through which the main portion of the waste matter of the system is discharged is lined with a membrane as delicate as silk and as sensitive as a net work of nerves can make it. Neither consumption colic diarrhoea, dysentery, nor any other bowel complaint can be cured by abusing and convulsing this tender membrane by a furious purgative The best and safest remedy in such cases is that mild balsamic and delightful tonic laxative, TARRANT'S EFFERVESCENT SELTZER APERIENT which heals, tones and invigorates the irritated intestines while it relieves them from the morbid humors which provoke abdominal ills.

My Babes in the Wood

I know a story fairer, [illegible] sadder
Than any story [illegible] in your books
[illegible] glad [illegible] make [illegible] gladder
Yet listen with your pretty [illegible] looks

"Is it a fairy story?" Well, half fairy—
At least it dates far back as fairies do
And seems to me as beautiful and airy
Yet half, perhaps the fairy half, is true

You had a baby sister and a brother
Two very dainty people, rosy white
Sweeter than all things else except each other
Older yet younger—gone from human sight

And I, who loved them, and shall love them ever
And think with yearning tears how each light hand
Crept toward bright bloom and berries—I shall never
Know how I lost them. Do you understand?

Poor slightly golden heads I think I missed them
First in some dreamy piteous doubtful way
But when and where with lingering lips I kissed them
My gradual parting I can never say

Sometimes I fancy that they may have perished
In shadowy quiet of wet rocks and moss
Near paths whose very pebbles I have cherished
For their small sakes, since my most bitter loss

I fancy, too, that they were softly covered
By robins out of apple flowers they knew
Whose nursing wings in far home sunshine hovered
Before the timid world had dropped the dew

Their names were—what yours are. At this you wonder
Their pictures are—your own, as you have seen
And my bird buried darlings hidden under
Lost leaves—why, it is your dead Selves I mean
Mrs. S. M. B. Piatt, in Harper's Magazine for December

Russia and Prussia Secretly Allied

The following statement relative to an existing secret treaty between Russia and Prussia lately appeared in the *Moniteur Universel* and is vouched for by the editors, who declare in a letter to the London Times that the information is guaranteed in the most undoubted manner, and has the confirmation of one who by his rank and position could not fail to be well informed. The importance is apparent in view of the announcements made this morning of a rupture between Bismarck and Von Beust and the demand of Russia for the revision of the Paris treaty which neutralizes the Black Sea.

When the war broke out between France and Prussia the Emperor of Russia declared to the French Ambassador at St Petersburg that it was his intention to preserve the strictest neutrality, provided that Austria did the same. Austria, on her part had made a formal declaration of neutrality, but, as her armaments were not even adequate to the usual peace footing, she commenced pushing them forward although with her characteristic slowness and only so as gradually to attain the normal strength. Russia took umbrage at this, and, a few days after the declaration of the Emperor Alexander to Gen Fleury, the Russian Charge d'Affaires at Paris received instructions by telegraph to see the [illegible] Foreign Affairs, and to call his attention to the fact that the neutrality [illegible] conditional upon, and [illegible] to, the inaction of Austria [illegible] called out her [illegible] would do the same, [illegible] her artillery, Russia [illegible]. In a word, Russia [illegible] circumstances, regulate her [illegible] according to those of Austria, and [illegible] a course which could not but be attended with some danger, the Russian Government appealed to France, so that by causing Austria to [illegible] from arming, Russian neutrality might be insured. The Russian Charge d'Affaires even went so far as to ask the Minister for Foreign Affairs to declare that he would take no steps whatever having for their object to bring Austria into alliance with France. (This [illegible] at the commencement of the war, before the first reverses of the French army, and when the assistance of Austria was yet possible.) The French Minister replied "that he was not informed of the extraordinary armaments of Austria, which seemed so to alarm the Russian Government, that moreover if Austria was really arming he had no reason to remonstrate with the Cabinet of Vienna with a view of obtaining the cessation of preparations which evidently could in no way be directed against France. Besides, he did not see anything objectionable in Russia arming on her part, if she thought fit, nor would he be any the more disposed to make such a course the object of diplomatic representations, for he was persuaded that such would in no case, on a question of this character, conduce to any alteration in the resolutions of [illegible] Government. As to the [illegible] he should declare in advance that [illegible] France seek an alliance with [illegible] a declaration at the commencement of a war would be at least inopportune [illegible] could not justify itself sufficiently [illegible] neutrality of Russia." [illegible] Charge d'Affaires then added [illegible] would, nevertheless, find such a [illegible] interest and a certain advantage for [illegible] moment that Austria declared against Prussia that same instant would Russia take the field against Austria. "Then," replied the French Minister, "that is because you have a secret treaty with Prussia." That the armaments of Austria should have provoked on her movements in Russia as a measure of precaution could be regarded as a natural consequence, but the moment that Russia declared her readiness to attack Austria, if the latter sided against Prussia, it became evident that before the war a treaty had been entered into between Prussia and Russia. And this is what had happened, as has since been made manifest by the course of events. What are the clauses of this treaty? This question will naturally occur to all experienced politicians and, although the two sovereigns have preserved absolute secrecy upon the reciprocal conventions, it is not impossible to [illegible] what are the principal points. All [illegible] acquainted with the traditional policy of Russia—of the two currents of opinion which divide that vast empire—all, in fact who can form an estimate of the various elements which at the same time constitute its power and its weakness will find no difficulty in foreseeing with what object the Emperor Alexander has bound himself by treaty to the King of Prussia. As its further development proceeds this question will doubtless receive further attention. For the present it may suffice to establish clearly by information the accuracy of which is guaranteed that Russia is in the Prussian camp and that she is there by virtue of a treaty of which England would do well to seek to ascertain the clauses so as to be able to anticipate their consequences before it is too late to avert them.

A Question of Race—One of the strangest things, philosophically considered, in connection with the Franco Prussian war, is that the Papal Zouaves have enlisted so generally under the flag of the French Republic. *A priori*, one would suppose that the last place to find the Defenders of the Faith the body guard of the Vicegerent of God would be under the infidel tri color Republicanism in France commenced by abolishing Christianity, and has always rallied to it the wild unbelieving elements of European society. Garibaldi, the Pope's most bitter enemy, now fights for French Republicanism. Yet no sooner are the soldiers of the cross—the Zouaves—released from service as the Pope's defenders by the fall of Rome than straightway they follow in the trail of Garibaldi and enlist under the standard of skeptical France. Their commanders urge them to the conflict. Count Chambord himself tells them that is their duty.

The cause of the anomaly is deeper than religion. It may be found in the secret and mysterious affinities of race, which, in a greater degree than is usually thought, control and shape creeds and religion. The Papal Zouaves are about one half French, and one-half Irish and Italians. All these races have close affinities and the closest affinity of all have been crushed by the Teutonic race of which the Anglo Saxon is a branch. *This is why the Papal Zouaves fight for prostrate France*—*Pittsburg Leader*

Direct trade between the Mississippi Valley and Europe will not be much longer postponed. The first ship sent out by the Liverpool and Mississippi steamship line has made a brilliant trip and the other is on her way from Liverpool. The vessels are of 3,000 tons burthen. Four other steamers for this line are now on the stocks.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL
San Francisco Established 1854 for the treatment of Sexual and Seminal Diseases such as Gonorrhea Gleet Stricture Syphilis in all its forms Seminal Weakness Impotency, etc. Skin Diseases [of] years standing and Ulcerated Legs successfully treated

DR GIBBON has [illegible] from [illegible] Europe [illegible] where his old patients and those requiring his services may find him
The Doctor has spent [illegible] time [illegible] seeking out new remedies and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence in the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents guardians friends attend to those who are suffering with any of these horrible life destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, disposition to shun society loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue fetid breath coughs consumption night sweats, monomania and frequent insanity. If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief
DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Notice is hereby given that a REVOLVING (a [illegible]) WHITE LIGHT of the first order of the system of Fresnel will be exhibited for the first time on the evening of December 1st, 1870 and on every evening thereafter from sunset to sunrise from the tower recently erected on Point Reyes, California. The intervals between the flashes are five seconds each
The tower is 23 feet 3¼ inches in height from the base to the focal plane built of [illegible] painted white and is situated on the steep slope of the bluff point about 200 yards from its extremity. The dome of the lantern is painted [illegible] the [illegible] parts of it white
The light is elevated [illegible] feet above the [illegible] of the sea [illegible] degrees [illegible] in [illegible] miles [illegible] above the [illegible] nautical miles
The keeper's dwelling is a two story wooden building painted white with green blinds and is placed at the top of the steep slope [illegible] feet higher than the base of the tower
The geographical position of the Light House as shown by the United States Coast Survey Chart is lat 37 degs 59 mins 39 sec North long 123 deg 00 mins 1[illegible] sec west from Greenwich. The magnetic variation 16 degs 08 mins east
A tangent to the shore in an easterly direction bears S 74 degs E magnetic and this line limits the visibility in that direction. The angle of visibility over the water is [illegible] degs

THE RIVERSIDE
HOMESTEAD ASSOCIATION!

OF

EAST PORTLAND, OREGON

IS NOW PREPARED TO RECEIVE [illegible] to their Stock
Application for ONE HUNDRED SHARES [illegible] before the books were opened, and a large [illegible] Shares have been taken
The following extracts from the *Oregonian* [illegible] will convey a good idea of the plan and [illegible] the Association the location of the land, [illegible]

RIVERSIDE HOMESTEAD ASSOCIATION

This association of whose organization [illegible] an account a few days since, is now ready [illegible] pose of shares. As it is with one exception [illegible] Portland Homestead Association, the first organization of that kind in this city, it may [illegible] well enough to state what are its purposes [illegible] the manner in which it is proposed to conduct its operations. The purposes of these [illegible] Associations are not at all speculative [illegible] dinary sense of the word. They [illegible] for the profits of their investment [illegible] ral advance in the value of their [illegible] quent upon the co-operation of many [illegible] —shareholders and the advance [illegible] surrounding lands by reason of the [illegible] population and demand for room [illegible] still near, the city. The Riverside [illegible] Association has a fraction over one [illegible] twenty acres of land situated just [illegible] Brooklyn on the east side of the river [illegible] est boundary line being about [illegible] ferry landing at East Portland. [illegible] in one strip along the Willamette river [illegible] in length and another strip along the Oregon and California railroad, half a mile in [illegible] strips being connected near the [illegible] rows of blocks (with a street [illegible] whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square [illegible] streets running at right angles [illegible] al lots, along the river front [illegible] ber 600, worth $60 per share. [illegible] a share thus represents [illegible] vided interest in the 80 [illegible] tional shares are to be sold [illegible] for the benefit of the Association [illegible] coming in for the price [illegible] number of shares held. When all [illegible] taken and the Association [illegible] mine to do it, the choice [illegible] will be put up at [illegible] bidder the proceeds of such sales [illegible] the original price of shares [illegible] equally among the whole [illegible] Thus if a person wants a certain [illegible] and is willing to pay $100 or $200 [illegible] or less as the case may be [illegible] the lot or block as his individual [illegible] premium being divided among the [illegible] of shareholders. It will [illegible] everything is co-operative [illegible] tual. No man can make a dollar [illegible] out also making a dollar for every [illegible] shareholder. There is no [illegible] the property, by some [illegible] far below the first actual cost [illegible] liable to happen in the [illegible] tract of land must be judged [illegible] but considering the steady [illegible] vance on real estate in this city and [illegible] hood and at East Portland [illegible] last year or two, it [illegible] values to go back

In the Riverside Association all [illegible] tions seem to have been [illegible] monopolies of shares. No person [illegible] buy more than the number of shares [illegible] three blocks, or twenty-four lots [illegible] terminating the operations of the [illegible] restricted in the same manner [illegible] shares may pay down [illegible] exempt them from all [illegible] pay $15 quarterly with [illegible] share payable with the first [illegible] liable in this latter case to [illegible] other) assessment of $5 per share [illegible] payment of the shares in full [illegible] as above the holder is entitled [illegible] and his proportion of all the profit [illegible] all sources. No officer of the [illegible] any pay for services except the [illegible] gets $25 per month, so it will be [illegible] expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about [illegible] above the water. There is no part of the [illegible] row of blocks but commands a [illegible] view of Portland and the river for miles up and down stream. That part of the tract lying along the railroad is, every foot of it, of the [illegible] soil and adapted to gardening [illegible] tiful little stream of pure water [illegible] almost the entire length of this wing of the tract, affording the means of irrigation [illegible] ficient to supply pure water to every part of the whole tract. There is not a waste lot or [illegible] lot in the entire tract. Under all these advantages it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he [illegible] may get a perfect title to as many lots as his shares may represent or he may continue his interest, divided with the Association while the [illegible] tion may exist—*Oregonian* [illegible]

THE RIVERSIDE HOMESTEAD ASSOCIATION

We have been led to [illegible] fact that the subject of [illegible] skirts of this city and East Portland [illegible] d[illegible] here among all [illegible]
'Riverside, just south of [illegible] been established. The site [illegible] ing a little over a mile south of the ferry [illegible] shaped like the letter H, one side of which [illegible] in length borders on the river
From this portion of the [illegible] but a trifle above the other [illegible] of the H, [illegible] forty or fifty feet above the river, [illegible] sive view of Portland, East Portland [illegible] the Willamette river for [illegible] fertile, and is partly covered with [illegible] tract of land just wide [illegible] with an avenue between them, [illegible] of the H (which has already been [illegible] the east. This last tract of land is [illegible] valley which is now under a high state of [illegible] Through its whole length runs a brook [illegible] of which [illegible] clear as crystal [illegible] Association proposes to have water [illegible] pipes to every portion of the home[illegible]
